Progressive Lighting & Energy Solutions Helps *Orange County Container Group* Become ‘Greener’ and More Energy Efficient

City of Industry, Calif. – Orange County Container Group’s corporate headquarters located in City of Industry, CA is a 279,000 square foot manufacturing facility specializing in up to 7 color direct flexo printing with in line U.V. coating, single face laminating, label laminating, industrial packaging and fulfillment has just completed an energy efficient lighting upgrade program. Progressive Lighting & Energy Solutions assisted Orange County Container in helping protect California’s environment by consuming less energy and reducing harmful airborne emissions.

Orange County Container Group currently employs over 2,400 dedicated people with over 2,200,000SF of building space in the U.S., Mexico and China and has approximately \$350,000,000 annual sales as of 2008.

Orange County Container Group had Progressive Lighting and Energy Solutions install new energy efficient lighting that will save nearly \$96,000 a year in electrical energy costs while reducing harmful carbon dioxide emissions (CO₂) by 414 tons per year. The emissions savings is equivalent to making 252 households carbon neutral over the next five years. As a result of its emissions reduction, Orange County Container will also receive an about \$46,074 rebate from Southern California Edison and earn approximately 345 Carbon Credits.

Progressive Lighting and Energy Solutions is California’s Leading Energy Solution Company that upgrades existing buildings, high rise offices, commercial and industrial complexes’ existing lighting to more efficient systems to help reduce fixed operating costs, improve productivity and reduce harmful carbon emissions.

“Helping California corporations become greener in its energy usage through lighting efficiency measures equates to removing thousands of homes in California from the electrical grid,” says Progressive Lighting and Energy Solutions Vice President of Sales, Tom Johnson.

Regency Lighting of Van Nuys, CA. through a strategic partnership with Progressive Lighting & Energy Solutions, helped initiate the relationship between Progressive Lighting and Orange County Container Group.
